Professional Summary

B.Tech IT graduate with hands-on experience in web development projects and problem-solving using Java, JavaScript, databases and solid understanding of software development principles, OOP concepts, and version control systems like Git. Seeking an entry-level opportunity to utilize my coding skills and grow in a professional environment.

Projects

Portfolio Website

🔗 <https://inigar.github.io/portfolio/>

- Created a personal portfolio website to showcase projects, skills, and contact information.
 - Designed an attractive and responsive UI using modern CSS layouts and animations.
 - Implemented JavaScript for interactive elements and smooth user navigation.
- HTML, CSS, JavaScript

To-Do-List

🔗 <https://inigar.github.io/To-Do-List-App/>

- Developed an interactive To-Do List web application that allows users to efficiently manage daily tasks.
 - The application enables users to add, edit, delete, and mark tasks as completed, providing a simple and intuitive UI for better productivity.
 - Implemented localStorage to store user tasks persistently, ensuring tasks remain saved even after page refresh.
- HTML, CSS, JavaScript

Weather App

🔗 <https://inigar.github.io/WeatherApp/>

- Developed a responsive web application that displays real-time weather information for any location.
 - Integrated OpenWeather API to fetch live temperature, AQI and weather conditions.
 - Ensured cross-device compatibility with a mobile-friendly layout.
- HTML, CSS, JavaScript
